

SAI KIRAN NANDAM

Data Analyst

Vijayawada, India | +91 9398748497 | kirannandam676@gmail.com | LinkedIn | Portfolio

Professional Summary

Data Analyst with hands-on experience in SQL, Python, Power BI, Tableau, Advanced Excel, and Statistics for transforming raw data into actionable business insights. Skilled in data cleaning, data profiling, SQL view creation, dashboard development, and business reporting. Proficient in Python using Pandas, NumPy, and Scikit-learn for analysis, statistical modeling, and automation, with strong storytelling, KPI reporting, and stakeholder communication skills.

Skills

- **Advanced Excel:** Pivot Tables, Pivot Charts, XLOOKUP, VLOOKUP, INDEX-MATCH, Macros/VBA
- **SQL:** Joins, CTEs, Window Functions, Subqueries, Stored Procedures
- **Python:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Data Wrangling, Automation, Statistical Modeling
- **Statistics:** Descriptive Statistics, Inferential Statistics, Hypothesis Testing, Correlation Analysis, Regression Analysis
- **Power BI:** DAX, Data Modeling, KPI Visuals, Slicers, Power Query
- **Tableau:** Calculated Fields, Filters, Interactive Dashboards
- **MySQL:** Database Management
- Exploratory Data Analysis (EDA), PowerPoint, Problem Solving, Storytelling, Stakeholder Management, Communication

Experience

Data Analyst Trainee — Cedlearn Oct 2024 – Jan 2025
Hyderabad, India

- Collected, cleaned, and transformed 50,000+ records across 5+ datasets using SQL (Joins, CTEs, Window Functions), reducing data preparation time by 35%.
- Conducted end-to-end EDA using Python (Pandas, NumPy, Matplotlib, Seaborn) on 5+ datasets, identifying 10+ actionable patterns to support data-driven decisions.
- Designed 3+ Power BI dashboards with 8+ DAX measures, KPI visuals, and slicers, enabling 4 stakeholders to monitor metrics 30% faster.
- Built 4+ Excel analytical reports (Pivot Tables, Power Query, VLOOKUP, XLOOKUP) and 5+ Tableau dashboards with calculated fields and filters, cutting manual processing time by 40% and improving team data comprehension by 25%.

Projects

Telecom Customer Churn Risk Analysis Dashboard | Power BI · SQL · Excel · DAX | [Live Demo](#)

- Analysed 10,000+ customer records using SQL extraction and Excel data wrangling to identify churn patterns through behavioural segmentation and retention analysis.
- Built an interactive Power BI dashboard with 8+ DAX measures, KPI cards, and drill-through reports, reducing stakeholder access time to churn insights by 20%.
- Identified 3 key churn drivers via root cause analysis, helping business teams prioritise high-risk segments and improve retention rate by 15%.

Food Inspection Violations Dashboard (U.S. Food Safety Data) | Power BI · SQL · Advanced Excel | [Live Demo](#)

- Profiled, cleaned, and resolved data errors across 315,000+ U.S. food safety inspection records (2017–2026) using SQL, consolidating 18,400+ violation records across 84 inspectors into an analysis-ready dataset.
- Built an interactive Power BI dashboard with severity-weighted scoring, KPI cards, and drill-through visuals, surfacing the top 10 recurring violations and inspector workload distribution across U.S. food safety inspections.
- Analysed yearly and monthly inspection trends and violation severity distribution, informing recommendations for targeted facility training and optimised inspector allocation.

Student Placement Prediction System (MSc Final Year Project) | Python · Flask · Scikit-learn · ML | [Live Demo](#)

- Built an end-to-end Flask web application deploying two Scikit-learn models, a classifier predicting placement outcome and a regressor estimating expected salary package, from student academic and personal data.
- Engineered the full ML pipeline in Python (Pandas, NumPy) covering data preprocessing and feature engineering, exposed through a real-time HTML/CSS prediction interface.
- Delivered instant placement and salary predictions via a user-facing web interface, demonstrating full-stack ML deployment from notebook to a production-style application.

Certifications

Data Analytics and Visualization Job Simulation Accenture (Forage) · 2025
Data Analytics Training Program Cedlearn · 2025

Education

Master of Science – Computational Data Science Dec 2022 – Mar 2024
PB Siddhartha College, Vijayawada, India
Bachelor of Science – Computer Science June 2018 – Mar 2021
PRPM Degree College, Vijayawada, India
